LIGHTING

THE ENERGY SAVING CHOICE

LED Eco Bright PAR

The European Difference...

Introducing the all new, redesigned LED line from DLU!

Our new Eco Bright line is designed and built to European guidelines, which are acknowledged as the highest lighting standards in the world. The DLU Research and Development Team have worked meticulously to create a superior LED constructed with only the highest quality components. That is why Eco Bright LEDs are able to meet and exceed the exacting requirements of the USA market.

Features and Benefits

- **Frost Design** : *Frosted cover appearing like the bulb it replaces.*
- **Hidden Heat-Sink** : *Designed to look like a PAR Halogen*
- **CREE LED chip** : *CREE MX6 Chip, Highest quality components*
- **Dimmable** : *Fully dimmable*
- **Long Life** : *40000 Hours Life*
- **Warranty** : *5 year*
- **Energy Star** : *Energy Star Certified*

Suggested Applications
