LIGHTING

THE ENERGY SAVING CHOICE

MR16 *Diamond Glow Daylux™*

The **Diamond Glow Daylux™** high color temperature MR16's were designed to accommodate the areas of lighting when high color temperature with a halogen punch is required.

The low UV and infrared emissions along with the diamond faceted Eurofecto makes this lamp one of a kind full spectrum MR16.

Benefits and Features

- **4700K color temperature** : True light full spectrum color with a halogen punch
- **High CRI** : It's a halogen therefore offers 100% CRI
- **UV Stop** : Stops 95% of UV to protect valuable merchandise
- **Reduced Infrared emissions** : Protects valuable merchandise
- **Reduced heat design** : Designed to pull heat backwards
- **Axial Vertical Filament** : European designed vertical filament to prevent premature failure and extend lifetime

Suggested Applications

- Jewelry stores
- Diamond specialty dealer
- Optical shops
- Restaurants
- Libraries and Museums
- Landscaping
- Grocery stores
